Postdoctoral position in an ERC project

The research group led by Piotr Achinger at the Institute of Mathematics of the Polish Academy of Sciences in Warsaw, Poland is seeking highly qualified candidates for up to two postdoctoral positions for 24 months, with a possible extension for up to 36 months, in the project *Homotopy Theory of Algebraic Varieties and Wild Ramification*, funded by the European Research Council.

About the project: The project is devoted to the study of algebraic varieties and other algebraically defined geometric objects, especially over fields other than the complex numbers.

Project webpage: http://achinger.impan.pl/kapibara.html

Requirements: A PhD in mathematics is required before starting employment. Expertise in an area closely related to the project will be a significant advantage. Good communication skills in English are expected.

To apply: please submit
1. a detailed CV, including a list of publications (if applicable),
2. a research statement,
3. arrange for at least two letters of recommendation.

All documents should be sent by email in PDF to the address erc.kapibara@impan.pl

A short list will be made based on the candidates' applications. Short listed candidates might be invited for an interview or a remote interview.

Deadline: please send you application by **February 28, 2019** for full consideration. The position s remain open until they are filled.

In case of questions please contact Piotr Achinger directly at pachinger@impan.pl

DYREKTOR
